EDUCATION

2021 - 2025

UNIVERSITY AHE - LODZ

- Data engeneer - Specialization in programming technologies
- Achived an average of 4.9/5.0, equivalent to A

2004 - 2008

NATIONAL LOUIS UNIVERSITY

- International Marketing and Management

SKILLS

- **Programming Languages:** C++, Python, JavaScript, Java, Pascal, Fortran, SQL
- **Frameworks**: React, Next.js, Node.js, Flask, Django, Laravel
- **Databases**: MySQL, PostgreSQL, Oracle, SQLite
- **AI & Machine Learning**: scikit-learn, TensorFlow, Keras
- **Tools**: Git, Linux (Ubuntu, Debian), Wireshark, VirtualBox, PuTTY, MS Project, Docker, REST API, GraphQL
- **Graphic Design & UI/UX**: 12 years of freelance experience.

KEY COMPETENCIES

I am a Software Engineer with full-stack development experience, specializing in languages such as JavaScript, Python, and C++. I have hands-on expertise in frontend technologies (React, Next.js) and backend technologies (Node.js, Flask, Django), as well as API integrations, process automation, and database administration (MySQL, PostgreSQL). My skills include object-oriented programming (Java, C++), project management (Agile, Scrum), system analysis (ERD, BPMN), and AI model development (scikit-learn, TensorFlow). I am a fast learner, capable of adapting to diverse environments and leading projects from concept to completion. I am structured, independent, and solution-oriented, with strong communication and leadership skills developed through teamwork.

EXPERIENCE

Zenitel, Horten

Internship   2024

- Designed and developed a mobile application using Python, C++, and Microsoft Power Apps for monitoring and security, improving internal processes by 20% through faster data access.
- Enhanced app usability by implementing user feedback-driven updates, earning positive reviews from internal users.
- Integrated APIs to streamline system communication and data flow.

Techni, Horten

Summer Internship   2023

- Contributed to the development of artificial intelligence models.
- Gained hands-on experience with Python and practical AI implementation.

Manpower

Various Roles   2020- 2024

- Carried out tasks across production, construction, and service sectors.
- Gained adaptability and practical skills by working in diverse environments.
